

# How Can You Test It?

## Explanation

**Student written** - Summarize the group model. Sentence should include a cause for the phenomenon. How does it work?

## Lab Setup

- Brief sketch of the lab setup
- Include everything required to repeat the investigation
- 

## Procedure

- Steps in the investigation
- Controlled experiment - only change one variable at a time
- 

## Evidence

- Observation and measurements from the investigation
- Data organized in a table
- Displayed in a graph (if grade-level appropriate)

Drop Height (cm)	Bounce Height (cm)		Average Bounce Height (cm)
5	3	2	2.5
10	6	6	6.0
15	9	10	9.5

Effect of Drop Height on Bounce Height
